Airports

Many Airport authorities are adding Free Wi-Fi high speed internet access as an amenity for travelers. Some offer access in the entire airport while others may limit access to specified terminal or waiting areas. In addition, many airline club lounges may have their own free access available. At Axi Reach, our technology has been built from the ground up. The Axi Reach IT solutions are designed to replace less flexible networking systems and radically transform core airport internet processes to better meet the demands of today's internet savvy environment.

Axi Reach, with our superior technology, will not only help make your business better, it will bring in new revenue. Our various services and technology solutions include such things as billing mechanism, security technology, internet, and Video on Demand. As an Airport Authority, you are well aware that 90% of all business travelers carry a laptop and require some form of internet connection albeit wireless inside the terminal or running a connection inside a business center or lounge.
